Gray Davis
Governor

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption.
For a list of simple ways you can reduce demand and cut your energy costs, see our website at www.swrcb.ca.gov.*

REMINDER

Upcoming December 31, 2002 Deadline

Secondary Containment Testing for Underground Storage Tank (UST) Systems

The deadline for testing secondary containment is right around the corner. All secondary containment systems installed prior to January 1, 2001 must have their first periodic secondary containment testing performed by January 1, 2003*.

For general information on secondary containment testing requirements, please visit our website at:

http://www.swrcb.ca.gov/cwphome/ust/docs/secondary_containment/index.html.

On the website, you can also find the “[Upcoming New Regulatory Requirements for UST Systems](#)” letter that we sent to owners/operators in March 2001.

Don't wait until it's too late!

Owners/operators who fail to complete secondary containment testing by the deadline may be subject to enforcement action. For additional information on secondary containment testing of your UST facility, contact your local agency.

* If you have complied with the required testing, please disregard this notice.
